

Regen-Balance®

Aquatic Stabiliser

+ Optimal performance according to water temperature + Cycles out nitrogen and phosphorus compounds + Promotes balanced ecosystem after chemical treatment

This dry stabilising formula is enhanced with psychrophilic, neutrophilic, and mesophilic microorganisms and select stimulants to ensure optimal performance. Regen-Balance will quickly cycle out excess nitrogen and phosphorus compounds in aquatic environments.

DOSAGE RATES - Apply bi-weekly when water temperatures are 14.4°C to 25.6°C

Surface Area	Initial Application	Standard Application	Hypereutrophic Water
1000 m ²	0.5 kg	0.25 - 0.5kg	0.70 kg
2000 m ²	0.7 kg	0.25 - 0.7 kg	1.4 kg
4000 m ²	1.5kg	0.5 - 1.4 kg	2.7 kg

* Do not mix directly with algaecides or herbicides.

* If used in conjunction with algaecide or herbicide, apply Regen-Balance after chemical treatments for best results.

It is the users responsibility to determine conditions for use of this product and to assume liability for any loss, injury, damage, or expense arising from, or connected with the use of this product.

STORE IN A COOL, DARK PLACE

For best results we recommend applying Regen-Balance when the water temperature is 14°C to 25°C

WARNING

Causes serious eye damage and may cause skin irritation. Oxidiser: May intensify fire.

Avoid breathing dust/mist/vapour/spray. Wear protective gloves/protective clothing/eye protection/face protection. Wash thoroughly after handling. Do not eat, drink, or smoke while handling. Keep away from heat/sparks/open flames/hot surfaces. Store away from combustible materials.
