

Regen-Sediment[®]

Lake and Pond Biological Support

Establishes healthy microbiota + Breaks down organic matter + Enhances nutrient removal + Increases water quality and clarity

Regen-Sediment is a next generation 'probiotic' tablet for restoration and maintenance of impaired water resources. They establish a healthy microbiota at the water-to-sediment interface that accelerates the digestion of organic matter. The tablets sink to the bottom and rapidly populate the aquatic environment in which they are applied.

DOSAGE RATES - once per month or as needed

Surface Area	Targeted Sediment Reduction	Sediment Maintenance & Prevention
1,000 m ²	3 - 6 kg	1 - 3 kg
2,000 m ²	5 - 12 kg	3 - 6 kg
4,000 m ²	10 - 23 kg	5 - 12 kg
20,000 m ²	46 - 114 kg	23 - 57 kg
40,500 m ²	91 - 227 kg	46 - 114 kg
405,000 m ²	907 - 2268 kg	454 - 1134 kg

STORE IN A COOL, DARK PLACE.

Regen-Sediment works best when water temperature is 11°C to 54°C

* Do not mix directly with algaecides or herbicides.

* If used in conjunction with algaecide or herbicide, apply Select-Sediment after chemical treatments for best results.
